

Workshop: **Habitats and Micro-habitats**

Key Stage: **KS1/2**

Learning Objectives: Identify that most living things live in habitats to which they are suited and describe how different habitats provide for the basic needs of different kinds of animals and plants, and how they depend on each other.

Identify and name a variety of plants and animals in their habitats, including micro-habitats

Curriculum Links: **Plants, animals including humans, seasonal changes**

Living things and their habitats

Workshop Description: Walk around the museum grounds and woodlands with a member of the education team to look for different habitats, plants, trees, insects and animals. Learn all about your surroundings and identify different species. This workshop will be tailored for students of any age group who wish to take part. It will also be tailored for whichever time of year that you wish to make your booking. The workshop can be adapted to suit specific topics and include mini beast hunting.
